Saturday was 95 degrees with an increasing East wind. Scores were lower than usual due to wind pick ups and let offs and occasional 45° wind shifts.. Sunday was forecast for 100 degrees and shooters voted to start early. Shooting began at 7:45 AM and ended at 11:00 AM using electronic targets. Scores were higher on Sunday as firing took place early. 40 MPH winds were forecast for later Sunday, another good reason to finish shooting early. Thanks to everyone who participated and tolerated our high gas prices thanks to our new President of the United States.
